Scott Seawell  (Class of 1984)
Scott Seawell graduated from the University of Wisconsin – Eau Claire in 1984 with a major in computer science. Scott enjoyed a highly successful career leading to his appointment as Vice President of Marketing for Telera Corporation. Tragically, Scott passed away in 2005 at the age of 43 due to complications from Leukemia. His legacy lives on through the Scott Seawell Memorial Scholarships made possible by Scott’s generous gift to the Department of Computer Science.

Joshua Conner  (Class of 1994)
After graduating from UW – Eau Claire, Josh earned a Masters degree in Computer Science from UW – Madison. Josh worked at Intel on the i960 compiler tools for 2 years, then at Microchip Technology in Chandler, Arizona, first as an IDE developer and later as manager of the compiler group. Three years ago, Josh took a position with Apple as a compiler developer for the iPod, which ended up being a compiler developer for the iPhone. Josh was one of the first at Apple involved in the project, and was the lead compiler engineer.

Jacob Hookom  (Class of 2003)
Jacob Hookom is currently a lead architect with McKesson Medical-Surgical in Minneapolis. Since originally joining as a senior developer, he has led the development of several point-of-sale and analytical applications for the web, desktop and handheld platforms. While attending UWEC, Jacob worked in Eau Claire as a consultant and had an internship in California working on Sony's first internet appliance. When he's not doing development for work, Jacob is actively involved in the Java Community Process and open source projects with Apache, JBoss, and Sun.

Michael LeMay  (Class of 2005)
Michael is currently a Ph.D. candidate at the University of Illinois – Urbana Champaign supported by a prestigious National Defense Science & Engineering Fellowship. Michael is currently conducting research on a cyber infrastructure for the Powergrid project. He was also awarded a patent for his undergraduate research work on secure email protocols.
